reprint of the original first published in 1881 the antigonos publishing house specialises in the publication of reprints of historical books we make sure that these works are made available to the public in good condition in order to preserve their cultural heritage

higher education is a vibrant changing field of study with roots in multiple disciplines these degree programs prepare the administrators faculty and policy makers who direct the current and future higher education enterprise at a time when higher education is changing rapidly these programs are poised to frame

the future of an educated society this book examines all aspects of how higher education programs operate from their marketing focus on student affairs and community colleges the emergence of online programs and core curricula authors from a broad and diverse spectrum of institutions map the current setting of higher education programs with an eye on future directions for their livelihood and survival

just as higher education here in europe had its beginnings in religious training for the priesthood here in feudal japan too provided instruction for a religious life but while the evolution to secular instruction was gradual in europe in japan it came with a big bang the opening of the country and consequent westernization and all that that involved in the mid 19th century this first volume in the new japan documents handbook series tells the story in 25 chapters of how japan's system has become what it is now ending with a very tentative glimpse into the rest of the 21st century a variety of themes are covered by scholars chapters that concentrate on governance look at the distinction between national public and private institutions others consider important topics such as internationalization student recruitment and faculty mobility more innovative topics include women of color leading in japanese higher education all provide copious references to other authorities but rather than just toe the conventional line they include opinions and proposals that may be contentious or even revolutionary the editor provides an overview of the subject and its treatment in an introduction

this text addresses the reforms in the financial and administrative structure of higher education government intervention in introducing new managerial techniques and quality audits and the implications of these changes for both academics and administrators it is one of a series of four volumes which look at the educational dilemmas facing governments professional educators and practising administrators in the current climate in education the issues are addressed from international and comparative perspectives

this book discusses how teaching and research have been weighted differently in academia in 18 countries and one region hong kong sar based on an international comparative study entitled the changing academic profession cap it addresses these issues using empirical evidence the cap data specifically the focus is on how teaching and research are defined in each higher education system how teaching and research are preferred and conducted by academics and how academics are rewarded by their institution since the establishment of berlin university in 1810 there has been controversy on teaching and research as the primary functions of universities and academics the controversy increased when johns hopkins university was established in 1876 with only graduate programs and more recently with the release of the carnegie foundation report scholarship reconsidered by ernest l boyer in 1990 since the publication of scholarship reconsidered in 1990 higher education scholars and policymakers began to pay attention to the details of teaching and research activities a kind of black box because only individual academics know how they conduct teaching and research in their own contexts
