a new york times book review notable book of the year a washington post best book of the year a businessweek best business book of the year a chicago tribune best book of the year in this brilliant essential book pulitzer prize winning author thomas l friedman speaks to america s urgent need for national renewal and explains how a green revolution can bring about both a sustainable environment and a sustainable america friedman explains how global warming

rapidly growing populations and the expansion of the world's middle class through globalization have produced a dangerously unstable planet one that is hot flat and crowded in this release 2.0 edition he also shows how the very habits that led us to ravage the natural world led to the meltdown of the financial markets and the great recession the challenge of a sustainable way of life presents the united states with an opportunity not only to rebuild its economy but to lead the world in radically innovating toward cleaner energy and it could inspire americans to something we haven't seen in a long time nation building in america by summoning the intelligence creativity and concern for the common good that are our greatest national resources hot flat and crowded 2.0 is classic thomas l friedman fearless incisive forward looking and rich in surprising common sense about the challenge and the promise of the future

thomas l friedman's phenomenal number one bestseller the world is flat has helped millions of readers see the world in a new way in this essential new book friedman takes a fresh and provocative look at two of the biggest challenges we face today the global environmental crisis and america's surprising loss of focus and national purpose since 9/11 it is a groundbreaking account of where we stand now and he shows us how the solutions to these two big problems are linked how we can restore the world and revive america at the same time friedman explains how global warming rapidly growing populations and the astonishing expansion of the world's middle class through globalization have produced a planet that is hot flat and crowded in just a few years it will be too late to fix things unless there is a worldwide effort to replace our wasteful inefficient energy practices with a strategy for clean energy energy efficiency and conservation that friedman calls code green this is a great challenge friedman explains but also a great opportunity and one that we cannot afford to miss he argues that this cannot happen without american commitment and leadership in vivid entertaining chapters friedman makes it clear that the green revolution we need is like no revolution the world has seen it will be the biggest innovation project in history it will be hard not easy and it will change everything from what you put into your car to what you see on your electric bill but the payoff will be more than just cleaner air it will inspire us to summon all the intelligence creativity boldness and concern for the common good that are our greatest human resources hot flat and crowded is classic thomas l friedman fearless incisive forward looking and rich in surprising common sense about the challenge and the promise of the future

examines america s loss of focus and national purpose since 9 11 and the global environmental crisis and shows how the solutions to these two problems are linked

my hope is that managers will read business books a bit more critically free from delusions their deepest fantasies and fondest hopes tempered by a bit of realism phil rosenzweig the halo effect book jacket

the application of digital information and communication technologies icts to reform governmental structures and public service is widely and perhaps naively viewed as the 21st century savior the enlightened way to reinvigorate democracy reduce costs and improve the quality of public services this book examines the transition from e government to digital governance in light of the financial exigencies and political controversies facing many governments the chapters concentrate on strategies for public sector organizational transformation and policies for improved and measurable government performance in the current contentious political environment this fully updated second edition of digital governance provides strategies for public officials to apply advanced technologies manage remote workforces measure performance and improve service delivery in current crisis driven administrative and political environments the full implementation of advanced digital governance requires fundamental changes in the relationship between citizens and their governments using icts as catalysts for political as well as administrative communication this entails attitudinal and behavioral changes secure networks and less dependence on formal bureaucratic structures covered in part i of this book transformation of administrative educational and security systems to manage public services in a more citizen centric way covered in part ii the integration of advanced digital technologies with remote broadband wireless internet services part iii and the creation of new forms of global interactive citizenship and self governance covered in part iv author michael e milakovich offers recommendations for further improvement and civic actions to stimulate important instruments of governance and public administration this book is required reading for political science public administration and public policy courses as well as federal state and local government officials

prepare yourselves for the coming cyber revolution over time humankind has transformed from hunter gatherer to farmer from farmer to industrial worker and from industrial worker to service provider now we are on the cusp of a fourth transformative wave spurred by climate

change exponential population growth and our ever increasing reliance on technology this copernicus book follows the stream of changes we will likely experience over the next few decades these will involve the design and planning of smart cities and vital new mega cities as well as the use of sophisticated artificial intelligence and knowledge systems in our professional and everyday lives the book shows how the nature of work economics taxation social intercourse and a slew of other global human endeavors will almost certainly undergo fundamental shifts during this time despite the many crises the world is gearing up to face this book is not all doom and gloom it is a call to action a guide to how we might harness novel technologies in space and cyberspace to address our most urgent needs

a bewildering feature of so much contemporary political violence is its stunning impersonality with every city centre a potential shooting gallery every metro system a potential bomb alley killing strangers explores how acts of political violence have changed over time becoming unchained from inter personal relationships

list of illustrations list of tables preface introduction revolution and the city a spatial theory of revolution the growth and urbanization of revolution the urban civic revolutionary moment the repression disruption trade off and the shifting odds of success revolutionary contingency and the city public space and urban revolution the individual and collective action in urban civic revolution the pacification of revolution the evolving impact of revolution the city and the future of revolution appendix 1 construction of cross national data on revolutionary episodes appendix 2 revolutionary episodes 1900 2014 appendix 3 data sources used in statistical analyses appendix 4 choices of statistical models

after gandhi nobody has influenced modern indian political thought and action as much as jayaprakash narayan both stood out against the materialistic current of the times by insisting on politics with a moral base a stand evoking popular response but not appreciated by professional politicians
